This meeting is NOT an official program of ANESTHESIOLOGY 2016

The mission of ISPCOP is to promote excellence in the clinical management of, education about and research in the care of the obese patient in the perioperative setting

Learning Objectives

As a result of participating in this activity, participants should be able to:

1. Identify challenges in the perioperative care of patients with severe obesity.
2. Develop a strategy for rational, evidence-informed intra and post-operative drug dosing in the patient with obesity.
3. Describe the safe use of regional anesthesia in the patient with severe obesity.
4. Discuss the undergoing clinical trials opioid free anesthesia and postoperative pulmonary outcome in patients with severe obesity.

Joint Provider Statement

UNIVERSITY OF
LOUISVILLE
CONTINUING MEDICAL
EDUCATION & PROFESSIONAL
DEVELOPMENT

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the University of Louisville and ISPCOP (International Society for the Perioperative Care of the Obese Patient). The University of Louisville is accredited by the ACCME to provide continuing education for physicians.

Designation Statement

The University of Louisville Office of Continuing Medical Education & Professional Development designates this live activity for a maximum of 2.25 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Registration

Although there is no registration fee for participating in this symposium, please register in advance to allow for event planning: <http://bit.ly/ISPCOP2016>
